RE: Administrative NOD Response  
City of Denton ECO – W.E.R.C.S. Complex  
Denton, Denton County, Texas  
MSW Permit Number: 1590B  
CN600358980/RN102212685  
Type I Landfill Major Permit Amendment Application

Dear Mr. McGruder:

We have received your Administrative Notice of Deficiency Letter, dated February 23, 2016, and offer the following responses:

**A1** *Please revise and resubmit Page 2 of the Part I application regarding the public place where the application is to be held. The location currently provided is privately owned. A public location is defined as (i.e. City Hall, Public Library, or Courthouse etc.)*

**Response:** As per our phone conversation, the Permit will be moved from the Municipal Landfill facility to City Hall, located at 215 E. McKinney Street, Denton, TX 76201.

**A2** *Please revise and resubmit Page 4 of the Part I application regarding the Facility's Contact information. Please include a contact person's first and last name along with their professional title next to the business name. Include the contact person's email address and or fax number. This information is required in order to draft the public notice.*

**Response:** The Facility's Contact information has been revised to be Arden Vance Kemler, General Manager Solid Waste and Recycling Services. A direct mailing address, phone number and email address is also included under the facility contact information.

**A3** *Please verify and resubmit Page 7 of the Part I application to include the Texas State Representative's correct name and mailing address.*

**Response:** Texas State Representative's correct name and mailing address have been verified as per the Texas State Directory to be "Lynn Stucky" for Texas State House District 64. A direct mailing address, and phone number for the State Representative is also included under the same section in part I application form.

**A4** *Please resubmit a revised signed and notarized signature page.*

**Response:** An updated signature page is provided with this response.

**A5** *Our records indicate the Regulated Entity name will be changing from City of Denton Landfill to City of Denton ECO-W.E.R.C.S. Complex. Please revise and resubmit the TCEQ's Core Data Form (CDF). For all new applications that require a name change, the CDF must be filled out in its entirety.*

**Response:** The original intent was not to change the Regulated Entity name. However, after considering your comment, we have elected to request a change to the Regulated Entity name. An updated CDF is provided with this response.

**A6** *Please provide a Landowner's map(s) identifying the proper location of the facility boundary and a map key that cross-reference the landowners' name to the proper location on each map using the appropriate keying techniques.*

*Please submit four (4) sets of pre-printed mailing labels for the names and addresses of the adjacent landowners, only. The proper format to provide the required set of labels will be label sheets that have 30 labels to a page, 3 columns per page and 10 names per column. Please ensure the landowner mailing labels are complete and contain no punctuation and are in all caps as required by the US Postal Service. Please refer to the part B Application instructions as a guide.*

**Response:** An additional landowners map is provided with this response as Figure I-3.1, which keys surrounding landowners to land parcels in a sequential numerical fashion (i.e. 1, 2, 3...) rather than by physical address as provided initially.

Four sets of pre-printed mailing labels in the appropriate format are included with this response.

We have enclosed one original and three (3) copies of the revisions for your use, including new signature pages.

If you or your staff have any comments, questions, or need any further information, please do not hesitate to contact me at 469.200.7363 or [fpugsley@team-psc.com](mailto:fpugsley@team-psc.com).

Sincerely,

**16. Description of the Revisions to the Facility**

Skip this box, if "New" is selected under "Application Type".

Provide a brief description of all revisions to the permit conditions and supporting documents referenced by the permit. Also, provide an explanation of why the amendment is requested.

**Currently the Complex is a permitted Type I disposal facility with a Pre-Subtitle D cell, composite lined areas, and an Enhanced Leachate Recirculation System. This application proposes a vertical and lateral expansion to the north and west of the existing permitted facility, onto City owned property. Additionally, the Amendment seeks to include several new activities including, but not limited to: (1) landfill mining; (2) Industrial non-hazardous waste processing and disposal; (3) Liquid waste bulk solidification processing, and (4) alternative cover systems. The additional disposal airspace and waste processing operations will provide the City of Denton with long term solid waste management and planning capabilities.**
