

# SPACERAK

## SELECTIVE STORAGE RACK

### Roll-Formed Steel

Provide direct, FIFO access to every pallet. This system provides maximum versatility for a wide variety of SKUs and ensures quick access to all products. Easy to install, load beams connect easily and without tools, and the system can be easily reconfigured or expanded as needs change.

### FEATURES AND OPTIONS

- The most popular and versatile racking system in the industry.
- Common sizes are immediately available through our authorized QUICK SHIP network.
- Step Beams
  - » Beam heights from 2-1/2" to 6-1/2" and multiple steel gauge options to store and handle most any load
  - » Standard, 1-5/8"-high step ledge accepts crossbars, wood and other accessory supports
  - » Three- or four-pin end connectors allow for 2" vertical adjustability
  - » Integrated locking clip seats automatically as the beam connects to the frame column to prevent accidental beam disengagement
  - » Bolted end connectors available to attach to structural channel frames
- Frames
  - » 1-5/8", 3" and 4"-wide columns.
  - » 16 ga to 10 ga column steel thickness
  - » Offset kant-leg and step-back base options help prevent column damage
  - » Welded column reinforcements for added capacity and increased impact damage resistance
  - » Oversized base plates for seismic areas and increased capacity
  - » Teardrop punched columns 2" apart to allow for bolteless beam connection
- Accessories
  - » Row spacers, crossbars, wall ties, column guards, retail accessories and more are available to further customize your storage system

# Why Choose SpaceRAK?

No matter what quantity, type, size, shape or diversity of SKUs you need to store and move, SpaceRAK has the answer. What's more, we assure:

- Versatility—Extensive design and material options fit every type of application and facility.
- Exceptional Quality—SpaceRAK designs adhere to Rack Manufacturers Institute standards.
- Time and Cost Efficiency—Responsive sales and support teams, multiple shipping facilities, and quick-ship availability for common products translate into significant savings.
- Compliance Support—Your system can be designed to meet IBC, OSHA and all other codes and standards.
- A Positive Experience—Your satisfaction is our primary responsibility.
